

How To Play:

1. Press the arrow  shown on the tile you wish to move to
2. Move on beat to increase **combo score**, if you are off beat you will *not* move, and your **combo score** will reset to 0
3. Collect **BLUE** power cells  to add your **combo score**  to your **total score** 
(Total score will not be reset until you die)
Watch out for the **SKULLS!** 

I would love playtesting feedback if you have the time! Scan this QR code to fill out a form.
